DESIGN
OPTIONS**

Verandas • Glass Sunrooms

- Verandas
- Glass Sunrooms

If you want to get more from your garden, SunSpaces can help.

Our breathtaking glass sunrooms and verandas can help you to enjoy your outdoor living space whatever the weather!

The garden is a great place to spend time with family and friends but the British climate makes it difficult to enjoy your outside space.

Although it doesn't have to be this way! Here at SunSpaces, we supply a range of high-quality garden structures to suit your lifestyle. Manufactured from aluminium for the very best in low maintenance materials and available in a range of attractive, contemporary designs, our garden buildings allow you to make the most of your outdoor space - even on cold or rainy days.

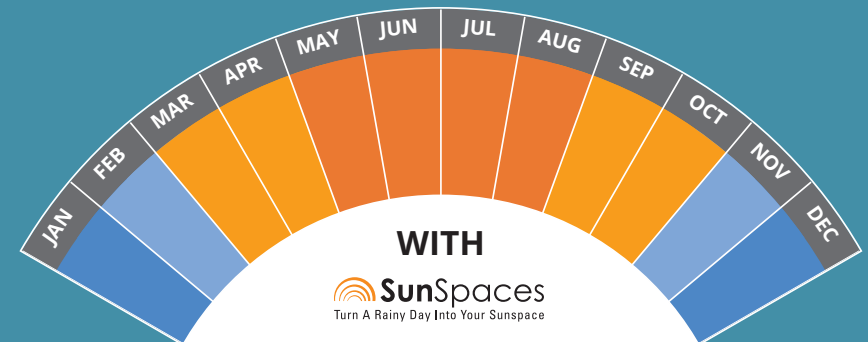

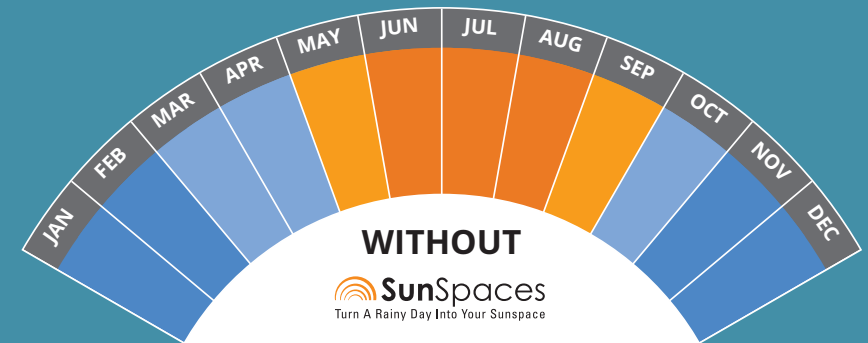

Panorama glass sunroom

Why add a SunSpace?

In Britain, we are destined to endure unpredictable weather all year round. Rain when it's supposed to be dry, warmth when it's supposed to be cold – leaving us with on-going trust issues with the weather forecast.

Here at SunSpaces we strive to outsmart the rain and wind and create an outdoor space that allows you to enjoy your garden for longer each year – from early March all the way through to late October. Each of our outdoor structures give you well-needed protection from the elements whether it's from winter downpours, wind or the summer sun.

"We are really thrilled with our new SunSpace veranda. It looks brilliant on the back of the house and makes the whole place look really modern. Plus it's massively practical. Allowing us to continue using our outdoor space even when it is raining or slightly cool. Its like having another room to the house! We wouldn't hesitate to recommend."

★★★★★ Esther Piper, Enfield, London

Glass sunroom

Why choose SunSpaces?

Thank you for your enquiry.

Why choose SunSpaces?

From a simple veranda or a glass sunroom, SunSpaces are extremely low-maintenance and cost effective. They combine high quality aluminium with great looks, giving you a personalised space solution with full control over design and layout.

How do we differ from other suppliers?

We want the SunSpaces customer experience to be as enjoyable as the time you will spend using our products. No pressure- just pleasure. Here's how we do it...

- **Fast reliable quote:** We don't use a pressured home visit to sell. Get a quote today. Should you decide to have a no-commitment survey, you will know PRIOR to survey the project cost and if the product you like is within your budget.
- **Design Lab:** We can draft a personalised design to your instructions PRIOR to survey. You decide the size and design that suits you best.

View, consider and select

Showroom available to visit with all 5 designs on display or save yourself the journey and book a virtual appointment with our team.

Then, when its time for a survey, we send our trained technicians to make sure we get it right for you – not salespeople bent on sealing the deal. You are in control: you make the choices and we will help to deliver the dream.

So don't hold back! Let your imagination run free. With SunSpaces you can extend the seasons; bask in the warmth of the sun, take the edge off the wind and cheat the British rain. Our elegant, high quality, aluminium building design options offer sleek and stylish space, providing light, privacy and shelter from the elements. Our Personal Advisors are here to help you at every stage to pick, plan and put into place the perfect all-year-round experience for outdoor living enthusiasts and we offer a full survey service.

We're here to help, so seize the moment – and turn even a rainy day into your own Sunspace.

There are other companies in the UK offering glass sunrooms and verandas, but we believe that our service outshines them all.

We won't try to make you sign on the dotted line on your doorstep – it's just not our style. With site visits and surveys, an in-house 3D design team, plus installation, we really do offer the full package – from concept right through to delivery!

A SunSpace built for you.

No two SunSpaces are alike. Each one is designed to fit your specific requirements. We can create the perfect garden structure for your lifestyle.

Alfresco living from March to October.

A SunSpace gives you the freedom to enjoy your garden from early March through to late October. Our insulated glass extensions allow year round use and comfort.

3D Design Lab.

Whatever your requirements, a 3D design is the perfect way to get your project started. It will help you visualise your new structure and allow you to explore a range of sizes, colours and designs to create your perfect SunSpace.

Customer feedback

Feedback from our customers - good or bad - is always welcome. It allows us to regularly review our services and products, make improvements where necessary and ensure that their experience of dealing with SunSpaces is all that it should be.

Here is what some of them have had to say...

16 Sept 2021

Highly recommended

After having problems with another supplier we selected Sunspaces for our veranda. From start to finish they were a joy to deal with. No question was too small and all were immediately answered. Communication was good throughout the process and we were advised in advance when there would be a quiet period whilst the veranda was being manufactured. The installers were an absolute joy, they were efficient and so clean during the process. When they left you wouldn't have known they'd been apart from the beautiful veranda sat on our patio.

Ben and the guys at Sun Spaces have made the process so far really easy. Up front with all the costs and always keen to help with all my questions. Hopefully the rest of the order, manufacture and installation will be just as smooth.

Sunspaces Glass Room

Very pleased with our glass room from Sunspaces. The company were easy to deal with, I had several conversations and email exchanges with them before ordering, they were always very quick to respond to questions. The installation went smoothly, a friendly team. The glass room is a great place for a cup of coffee in winter sunshine. I'd happily recommend Sunspaces.

Great Product

We are very pleased with the veranda and awning that we purchased from SunSpaces. It has created another room for our house that can be used all year round. The awning also brings much needed shade to our kitchen/lounge which during the height of summer is almost uninhabitable due to the heat and glare of the sun. The veranda itself is very contemporary and subtle in its design. The team involved in the planning and construction were exemplary in their professionalism and attention to detail. Thank you to all concerned.

Great experience, quality product

Having compared different suppliers, I found sunspaces very helpful and informative without pushing for a quick sale. The design team provided advice and recommended the product we got in the end; we couldn't be happier. Good quality, professional installation team. Will definitely recommend.

28 Mar 2020

A fantastic company with fantastic staff that I would recommend to friends time and time again

I had been looking for a glass sunroom for a long time and I had been put off by mega high prices and the lack of companies that were able to construct what I was looking for. I came across sunspaces products on an Alan Titchmarsh gardening programme. I set about my enquiries and I was immediately impressed with what I was seeing and hearing. After initial discussions about what I wanted as well as costs it became clear that this was the company I had been looking for. I was given designs/photos of what my choices would look like. All the staff were super helpful and very friendly. The on site pre inspection was great and helped to answer some additional questions I had about the construction. I also found them extremely patient as there was a few issues on my side getting things organised and ready for the arrival of their team to construct the sunroom. The building phase was quick and the guys doing the work were fantastic. They had many years of experience in construction and they knew exactly what they were doing.

★★★★★ 2 years ago

It is great having a glass veranda, I cannot recommend getting one enough. We had decking fitted a few years ago but found the unpredictable weather meant we still were not able to sit in the garden quite as much as we would have liked. Now we can! We were able to go into the Cardiff showroom and see the options, the staff were great and the installation team did an excellent job.

We are very pleased with our canopy, it just finishes off our property. Mike and his team did an excellent job, and tidied up after they had finished, couldn't fault them. We would certainly recommend you and your team. Thanks for everything.

Love our veranda

We are extremely happy with our veranda and it was completed within the promised timeframe, despite Covid restrictions. Initially, we were not sure exactly what we wanted but the surveyor was excellent and helped choose the right one for us. The installation team were fast and professional. They looked after us during the whole process.

Endless possibilities... create your own SunSpace

SunSpaces provide you with a versatile outdoor living space. A SunSpace will enhance your lifestyle, and however you're planning to use the extra space, we will have something to fit your needs. SunSpaces come in all different shapes and sizes, making them a practical solution for your needs.

Whether you want to use your SunSpace for relaxing, entertaining, as a spa retreat, or even as a playroom for the children, we have plenty of ideas to help you decide how best to make the most use of your space.

We can tailor a SunSpace to your exact requirements; for instance, if you are looking for more privacy, we can provide a solid end wall or opaque glass wall panels. If you need retractable blinds or a louvered roof we can assist. If you are looking to make the most of the view, we can supply glass roofs and panoramic glass panels.

If you're trying to co-ordinate with colours, features and furniture that already exist, we can personalise colours to match your style.

The possibilities really are endless...

Design and order your SunSpace

Your project is very important to us. Our consistent UK-wide growth has been based on high quality customer service with many referrals from satisfied customers.

Every customer, whatever the size of the project, has a personal advisor and our highly trained specialist team will ease you painlessly through the simple steps to transform your dream space into reality.

"The service was excellent from start to finish. The advice of the sales team and the professionalism of the survey team and fitters was second to none. The after sales was also excellent and we are very happy with the finished product. I would thoroughly recommend SunSpaces to anyone looking for a professional and friendly service. Many thanks."

★★★★ Steve Mogg, Newport

Plan, scan or send a picture

To help us understand your project, jot down your thoughts on a simple plan. A rough idea of shape and a set of measurements of the area you wish to transform. Scan it and send. Or get snapping to show us your project space. Use our easy DesignLab photo upload facility on the website – or if you'd rather, email your photo for a quick response from our team of personal advisors.

Design Lab

If you'd like some extra, professional help, call on our 3D DesignLab service. Our experts will talk you through your perfect Sunspace. Then discuss your ideas with us for a quotation.

Dedicated survey team

For all SunSpace projects we deploy our dedicated survey team to discuss your individual requirements with you.

Our survey team can guide you through all elements – including any issues at the property, colour selections; as well as the seamless mix-and-match choices that combine SunSpaces aluminium structural supports with, among many other options, toughened glass doors, privacy screens and weather proof walling – all meeting the highest standards of customised constructions. The team can also liaise with our installers in order to convey your requirements.

Meeting your budget

Matching the right products to your budget and arriving at a transparent total cost for your project are simple and straightforward tasks. Just call our Personal Advisors directly – for our recommended product preferences and best cost choices.

Delivery

Once you are happy with the plans and would like to proceed, we will arrange to manufacture your very own Sunspace and schedule delivery and installation within a timely lead-time.

From call to install

We offer a dedicated installation service giving our customers the peace of mind that their SunSpace project will be handled professionally and with care.

No matter how you have your Sunspace installed, our products are extremely low maintenance and require little care once installation is complete, although we are only ever a phone call away if you have any questions about your new SunSpace – our service doesn't end with installation!

"From start to end it was easy and a pleasure to deal with SunSpaces. We would not hesitate to endorse their product, service and team to others who are looking for a similar veranda or glass room. 10 out of 10 in all respects."

Love Your Garden

CLASSIC VERANDAS

Aspire

Let the sunshine in! The SunSpaces Aspire Veranda lets you savour solitude or live afternoons to the limit with friends and family while the sun looks on... and the rain keeps off!

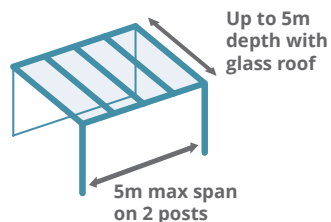

The cool, clear glass sets off sophisticated Aspire's luxurious, high quality aluminium structure, setting the tone for alfresco meal moments or midweek me-time.

The frame is made from high quality aluminium and is available in a range of four standard colours. Many custom RAL colours are also available (optional extra).

Aspire Verandas feature an 8.8mm thick laminated glass roof. A polycarbonate roof is also available.

Customise your SunSpace:

- Side walls in aluminium or 10mm thick toughened safety glass.
 - Freestanding/detached construction - locate your SunSpace anywhere in your garden.
 - A range of accessories including lighting and heating are available.
- See pages 20 and 21 for details.*

VERANDAS WITH 7M WIDE SPAN ON TWO POSTS

Aspire+

The SunSpaces Aspire+ Veranda offers endless perspective with fewer support posts to impair the view or distract as you soak up the scenery. The cool, clear glass is encased by a luxurious, high quality aluminium structure with a strengthened gutter, limiting the need for support posts and offering an optimum view of your garden and beyond.

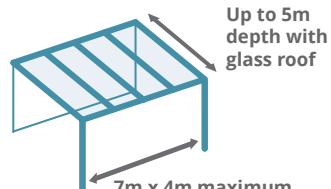

The frame is made from high quality aluminium and is available in a range of four standard colours. Many custom RAL colours are also available (optional extra).

Aspire+ Verandas feature an 8.8mm thick laminated glass roof. A polycarbonate roof is also available.

All Aspire+ verandas benefit from no central support (up to 7m wide). Side panels may be added (in a variety of materials).

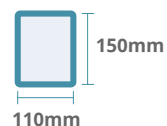

Customise your SunSpace:

- Side walls in aluminium or 10mm thick toughened safety glass.
- Freestanding/detached construction - locate your SunSpace anywhere in your garden.
- A range of accessories including lighting and heating are available. See pages 20 and 21 for details.

VERANDAS WITH A GLASS SLIDING ROOF

Avant-garde

Uniquely contemporary and beautifully designed, the stunning Avant-garde veranda boasts strength and style in equal measure for a finished product that never fails to impress. The Avant-garde veranda benefits from an 8.8mm thick laminated glass roof, and a flexible roof pitch. But by far the largest benefit is from its optional sliding roof system.

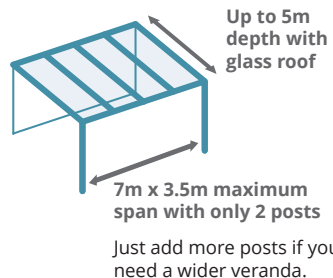

Living up to its name, the Avant-garde stands out with its innovative adaptability, allowing you to opt for a sliding roof system if desired.

Customise your SunSpace:

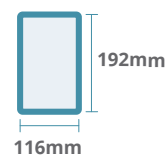

- Side walls in aluminium or 10mm thick toughened safety glass.
- Freestanding/detached construction - locate your SunSpace anywhere in your garden.
- A range of accessories including lighting and heating are available.
See pages 20 and 21 for details.

SLIDING ROOF SYSTEM

In addition to the all fixed glass roof (A) we offer a sliding glass roof option. The two outer roof panels must be fixed, but you can select which of the other panels are to slide (B,C).

VERANDAS WITH A MODERN CUBIST DESIGN

Ultra

The aptly-named Ultra veranda is ultra-modern and unashamedly so. Boasting a unique cube design, this outdoor structure is the perfect complement to a contemporary home design.

The impressive design of the Ultra also features a concealed roof gradient to give the appearance of flat roof veranda, with an integrated 8.8mm thick laminated glass roof integrated into the beam.

Meanwhile, the larger posts and beams provide a wider overall span for an unobstructed view that not only maximises the outdoor ambience but truly enhances the overall experience.

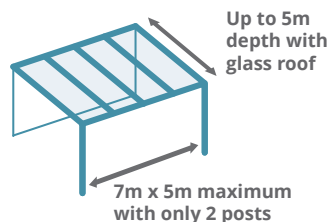

All in all, the Ultra veranda is a real show-stealer with an innate wow factor that's hard to beat.

Customise your SunSpace:

- Side walls in aluminium or 10mm thick toughened safety glass.
 - Freestanding/detached construction - locate your SunSpace anywhere in your garden.
 - A range of accessories including lighting and heating are available.

VERANDAS WITH A LOUVERED ROOF SYSTEM

Horizon

SunSpaces' Horizon verandas are created with you in mind. With a diverse range of features, this innovative modular system allows you to create your perfect veranda. The advanced louvered roof system allows you to make the most of any weather – it's watertight, so it can be enjoyed even during the rain. The hidden gutter system drains the water away, so when you open the roof after it's been raining, you'll remain dry and free to enjoy the sunshine!

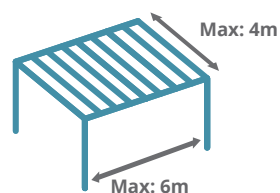

Available in two standard frame colours (special colours are available at a surcharge), these modular verandas boast sleek aluminium roof blades that are designed to open and close quickly and silently with a remote control, so you can adjust them with ease (perfect for the unpredictable British climate!). You can even add lighting, heating and a sound system! The louvered roof blades are supplied in cream white (RAL 9010) or anthracite grey (RAL 7016) so you can either contrast with the frame colour or match provided you order a standard frame colour.

Customise your SunSpace:

- Freestanding/detached construction - locate your SunSpace anywhere in your garden.
 - Bespoke sizes in width and depth now available
 - A range of accessories including lighting and heating are available.
- See pages 20 and 21 for details.

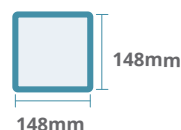

Rotating aluminium louvered roof blades provide ventilation, shade, and shelter. Easy to operate via remote control. Blades move silently.

Customise with options including lighting, heating and even a Bluetooth sound system!

Round Gutter

Classic Gutter

Roofing

Our 8.8mm laminated safety roof glass is by far the most popular option. Heat resistant glass available. Our Avant-garde and Vogue models can be supplied with a sliding glass roof. We can also offer a choice of polycarbonate options – clear, opal and heat repelling.

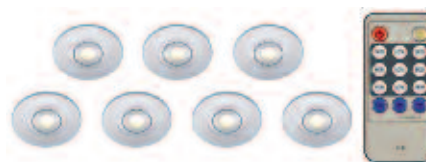

8.8mm Thick Laminated Glass

Lighting

Light up your nights with a set of LED's. Complete with transformer and remote control, these dimmable roof lights will help to illuminate your outdoor evenings. Available in various sets.

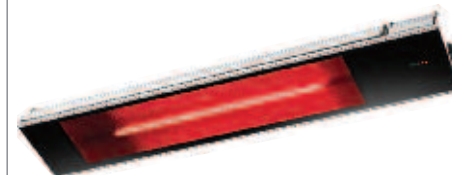

Heating

We supply a comprehensive range of heaters - including the innovative sound system (see right).

Model 1

- Aluminium casing and stainless steel grill for long life
- Sheathed heating element with quartz glass tube
- Latest carbon heating element with 5,000 hours running
- IP65 protection is suitable for outdoor and indoor use
- 1800 Watt
- operation via remote control (low/medium and high settings)
- Max. Adjustable angle 45 °

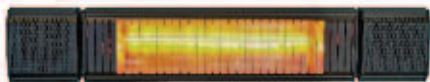

Model 4

- Ceramic glass panel with aluminium casing and stainless steel grill for long life
- Sheathed heating element with quartz glass tube
- Latest carbon heating element with 5,000 hours running
- IP65 protection is suitable for outdoor and indoor use
- 1800 Watt
- Operation via remote control (low/medium and high settings)
- Maximum adjustable angle 45°

Bluetooth with Heat and Sound

This system is a heater with an integrated Bluetooth stereo. The heater has a heating control function and provides a golden glow and this combined with the ability to play music really does help set the scene. It is operated via a remote control or by app.

Model 5

- Corrosion - resistant anodized casing for long life
- Aluminium alloy heating plate with ceramic infrared coating
- Sheathed heating element with stainless steel (SUS321) tube
- Nickel-chromium heating element up to 6,000 hours running
- Ceramic fibre thermal insulation layer reduces heat loss
- IP65 protection is suitable for outdoor and indoor use
- Mounting height: 2.1m - 2.7m
- Adjustable angle: parallel, 15°, 30°, 45°

Blinds

Combat screen glare and reduce internal heat with our range of fabric shade systems. We offer electric shade systems complete with UV-resistant material and available in a range of colours for custom personalisation. Below-roof and above-roof shades available.

Below-roof blind

GLASS SUNROOMS WITH GLASS SLIDING WALLS

Panorama

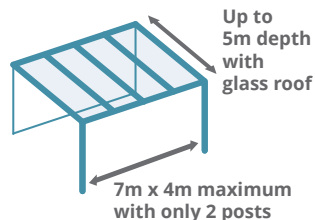

If you are looking for a luxurious way to get the very most out of your garden, a Panorama glass sunroom with glass sliding walls is perfect. The SunSpaces Panorama range combines a contemporary appearance with seamless sliding walls. The walls slide open allowing you to enjoy your outdoor space in all weathers with uninterrupted views. The glass walls simply open up in seconds when the sun arrives and close as quickly when it turns chilly - to let you keep the view and enjoy every moment of outdoor quality time.

Our Panorama glass sunrooms are manufactured with a high quality aluminium frame. These stylish glass sunrooms are available in a range of four standard colours, plus many custom RAL colours are available (optional extra). The glass panels are made from 10mm thick toughened safety glass and the roof can either be 8.8mm thick laminated glass or choose from a range of polycarbonate roofs.

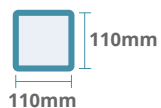

Customise your SunSpace:

- Panorama glass sunrooms feature 10mm thick toughened safety glass walls and an 8.8mm thick laminated glass roof.
- A polycarbonate roof is also available.
- Panorama glass sunrooms benefit from no central support (up to 7m wide).
- Side walls in aluminium or fixed glass.
- Freestanding/detached construction - locate your SunSpace anywhere in your garden.
- A range of accessories including lighting and heating are available. See pages 30 and 31 for details.

The **Panorama glass sunroom** has an unlimited width by adding more central posts.

GLASS SUNROOMS WITH A LOUVERED ROOF SYSTEM

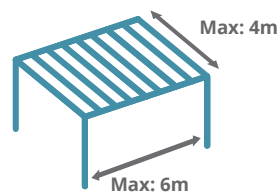

Dynamic

Our Dynamic glass sunrooms are created with you in mind. With a diverse range of features, this innovative modular system allows you to enjoy the perfect garden room come rain or shine. The advanced louvered system provides a watertight seal once closed, and the integrated drainage system, drains the water, allowing you to open the roof after a shower without risking getting wet!

Available in two standard frame colours (special colours are available at a surcharge), these modular glass sunrooms include sleek aluminium roof blades, that open quickly and silently via remote control, meaning you can open or close the roof as desired. Each of the side panels can be individually selected, so whether you need wind protection on one side, or glass sliding doors to the front, the Dynamic glass sunroom system provides total flexibility. You can even add lighting, heating and a sound system! The louvered roof blades are supplied in cream white (RAL 9010) or anthracite grey (RAL 7016) so you can either contrast with the frame colour or match provided you order a standard frame colour.

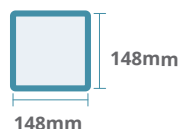

Customise your SunSpace:

- Freestanding/detached construction - locate your SunSpace anywhere in your garden.

More great ideas...

In addition to the SunSpaces range, we supply a comprehensive range of composite decking, as well as a superb range of porcelain tiles and paving.

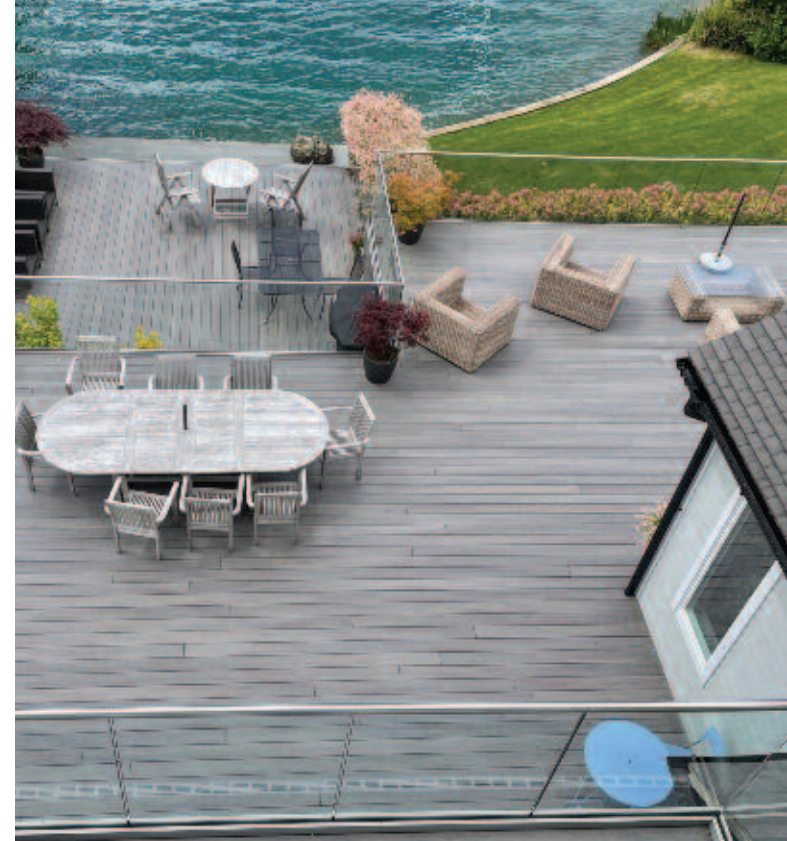

Composite decking

DeckPlus composite decking has a unique high density wood and polymer composite which provides great looks and is warranted against bending, expanding, cracking and splitting - bettering performance against hardwood and plastic boards.

Low maintenance, market leading DeckPlus looks great year-on-year because it doesn't need repainting, staining, sealing or sanding.

Trust DeckPlus. It's splinter free; slip resistant; won't rot or warp; has an ultra-low level water saturation and comes with long-lasting residential warranties.

Porcelain tiles and paving

PrimaPorcelain's comprehensive range of imported Italian porcelain flooring is the ultimate, stylish maintenance-free alternative to indoor floor tiles and natural stone paving or flagstones.

Elegant PrimaPorcelain is stain, scratch and slip resistant and offers a sweeping solution that will transform indoor and outdoor spaces, making the most of new extensions, open-out kitchen builds and bi-fold door improvements.

PrimaPorcelain is impervious to moisture and its wipe-clean properties mean a mop-over leaves it like new- with even grease, oils and red wine easily removed.
